"The limits of my language are the limits of my world."

— LUDWIG WITTGENSTEIN

ONBOARDING

You are not just learning a language. You are expanding the size of the life you can build here.

Every year, thousands of skilled, ambitious Brazilians move to Canada for better opportunities, for their families, for a different kind of future. You have likely already cleared enormous hurdles to get to this point: paperwork, planning, saving, waiting. But one hurdle does not show up on any immigration form, and it is the one that will quietly shape every job interview, every meeting, every negotiation, every friendship you build once you land: professional English.

Not textbook English. Not the English you learned for a test. The real, fast, idiomatic English spoken in Canadian boardrooms, job interviews, and everyday professional life — the English that decides whether you are seen as capable, or overlooked.

This book exists because Wittgenstein was right. The size of your world in Canada — the jobs you are considered for, the rooms you are invited into, the trust you are extended — will be shaped by the size of your English. Not your intelligence. Not your work ethic. Your language.

The good news: you already have an enormous advantage most learners do not. Portuguese and English share a hidden bridge — thousands of words built from the same Latin roots. You do not need to learn English from zero. You need to learn how to decode it, using vocabulary you already carry inside you. That is what Part I of this book teaches: not more words to memorize, but a system — Connect, Mean, Transfer — for unlocking English you can already half-recognize.

You may have noticed the two sumo wrestlers on my book's cover. They symbolize two forces of nature bringing out the best in each other. Honour me by stepping into the dohyō.

ONBOARDING, CONTINUED

Why This Book Has Two Halves

One more thing, and it matters more than anything else in this book.

In a group class of twelve students, a sixty-minute lesson gives each student only a few minutes of speaking time. And most of those minutes are spent answering a question you already knew the answer to, in a sentence you have said before, to a teacher who will move on before correcting you properly.

That is not how anyone learns to speak.

This book is built in two halves for exactly this reason. Part I is yours. Read it alone, at your own speed, on a plane or a bus or at a kitchen table at midnight. It gives you the system, the vocabulary, and the traps to avoid.

Part II is different. Part II is where you talk. It is designed to be used with a teacher, one to one, where every minute of the lesson is your minute. You will pronounce, then speak, then discuss, then be corrected, then say it again properly. That last step — saying it again properly — is the one group classes almost never reach, and it is the one that changes how you sound.

You are not learning English to talk about English. You are learning English to get the job, earn the promotion, and belong in the room. That takes speaking. So you are going to speak.

> English is the language you are learning. Portuguese is the language that helps you learn it.
> O inglês é a língua que você está aprendendo. O português é a língua que ajuda você a aprendê-la.

PROLOGUE

You Already Know More English Than You Think

Here is something almost no English course tells a Portuguese speaker: you did not start from zero. A very large share of educated, professional English — the vocabulary of business, government, law, science, and university life — comes from the same Latin source as Portuguese. You have been surrounded by these words your whole life. You just did not know they were English yet.

English is unusual because it runs on two vocabularies at once. One is Germanic — short, everyday words such as help, ask, buy, get, and think. The other arrived through Latin and French, and it supplies most of the language of educated adult life: facilitate, inquire, purchase, obtain, contemplate.

A Portuguese speaker already has access to a remarkable portion of that vocabulary, just wearing different endings. Atividade is activity. Realidade is reality. Decisão is decision. This book is going to make that relationship explicit and useful, starting on the very next page.

Most of the vocabulary in this book comes from Latin. A smaller set — especially academic and scientific terms such as theory, hypothesis, and analysis — comes from Greek, which reached English the same way and is just as recognizable to a Portuguese speaker. This book calls the whole system "the Latinate Advantage" for simplicity; where a word's root is actually Greek, the Code Card for that word says so.

The goal is not to replace simple English with big words. "Bigger" is not the same as "better," and a learner who overuses formal vocabulary in casual conversation sounds translated, not fluent. The goal is precision: knowing which word belongs in which room. This book will teach you both halves — the formal word and its everyday twin — so you can choose deliberately instead of guessing.

THE CMT METHOD

Don't memorize. Connect. Mean. Transfer.

Every word in this book is built the same way, and once you notice the pattern you can apply it to words this book never covers. It has three steps.

CONNECT what does this English word connect to? A Portuguese cognate, a Latin root, a family of related words, an everyday synonym you already know.

MEAN what does it actually mean, in this register, in a real sentence — not just a dictionary definition, but how it's actually used.

TRANSFER can you recognize the same pattern somewhere else? A word family, a collocation, a phrasal twin, a completely different word that shares the same root.

Take mitigate. Connect: mitigar — you already half-know this word. Mean: to make something less severe — "we need to mitigate the risk." Transfer: once you have mitigate, you also have mitigation, mitigated, and mitigating — and the habit of asking the same three questions about the next unfamiliar word you meet.

Every Code Card in this book — and the DECODE, ROOT WORD, and CHECK FIRST labels you'll meet on the very next page — is CMT in practice: Connect is the guess-and-check step, Mean is the definition and example, Transfer is the word family and collocations. You'll see the method again and again until it stops being a method and starts being a habit.

Turn the page, and you will convert your first hundred words in about five minutes.

Chapter 1 — The Latinate Advantage

1.1 Latin Cognate Conversion

This is the fastest shortcut in the entire book. Portuguese and English share thousands of Latin-derived words that differ only in their ending. Learn the pattern once, and it applies to hundreds of words you have never studied.

-mente	→	-ly	rapidamente → rapidly · claramente → clearly · atualmente → currently

The Anchor Words

Twenty of the strongest words in the full 123-word set, in the Code Card format that runs throughout Part I.

FOCO DESTA SEÇÃO: as vinte palavras mais fortes do conjunto.
SEU OBJETIVO: reconhecer e começar a usar as vinte palavras mais fortes do conjunto.

WHAT TO MEMORIZE

THE CODE

PHRASAL TWIN no natural phrasal twin.

⚠ complacência looks like the obvious cognate but is a false friend — it means "complacency," being too lenient or self-satisfied, almost the opposite spirit of compliance. PHRASAL TWIN dependable — informal, near-synonym.

⚠ Don't reach for a religar-based word here — Portuguese never developed a reliable-equivalent from this root. Confiável is the only natural, and only correct, translation.

COLLOCATIONS

Portuguese is not just your first language. It is a vocabulary resource.

Word Families in Practice

One root, four parts of speech — learn the pattern once, unlock the whole family

Every Code Card in this book includes a WORD FAMILY field, but the pattern behind those fields deserves its own look. Latinate words rarely travel alone — a single root usually spawns a noun, a verb, an adjective, and often an adverb, each built with a predictable suffix. Learn the four suffix patterns below, and you can often guess the rest of a word's family the moment you meet just one member of it.

THE FOUR COMMON PATTERNS

NOUN	-tion / -sion / -ment / -ance / -ence	e.g. decision, agreement, importance
VERB	(often the base form itself)	e.g. decide, agree, differ
ADJECTIVE	-ive / -ent / -ant / -ful / -able	e.g. decisive, different, capable
ADVERB	adjective + -ly	e.g. decisively, differently, capably

TWELVE WORD FAMILIES

ROOT	NOUN	VERB	ADJECTIVE	ADVERB
decide	decision	decide	decisive	decisively
produce	production	produce	productive	productively
communicate	communication	communicate	communicative	communicatively
analyze	analysis	analyze	analytical	analytically
create	creation	create	creative	creatively
inform	information	inform	informative	—
organize	organization	organize	organized	—
differ	difference	differ	different	differently
succeed	success	succeed	successful	successfully
respond	response	respond	responsive	responsively
apply	application	apply	applicable	—
persist	persistence	persist	persistent	persistently

Notice the traps: inform → informative has no natural adverb in everyday use; organize → organized functions as the adjective far more often than organizational does outside job titles. The pattern is a strong first guess, not a guarantee — always confirm with a card's own WORD FAMILY field before trusting a guessed form in writing.

The Two Englishes

Germanic vs. Latinate — and when each one belongs

English speaks with two voices. One is Germanic and handles most of daily life — short, direct, physical. The other arrived through Latin and French and handles most of educated, institutional life — precise, formal, abstract. Fluent English is not choosing the "better" column below; it is knowing which room each word belongs in.

EVERYDAY / GERMANIC	LATINATE / PROFESSIONAL
help	assist / facilitate
ask	inquire
buy	purchase
begin	commence / initiate
end	terminate / conclude
use	utilize
give	provide
get	obtain
show	demonstrate
think about	contemplate
find out	discover / ascertain
put off	postpone

FOCO DESTA SEÇÃO: os dois vocabulários do inglês: germânico e latino.
SEU OBJETIVO: escolher o registro certo para cada situação.

speed up	accelerate
hold back	restrain
stand for	represent / constitute

The rule of thumb:
Germanic words dominate spoken, personal, and casual English. Latinate words dominate written, professional, and institutional English. A sentence that mixes registers badly — "I wanna ascertain your availability" — sounds wrong not because ascertain is a bad word, but because it is in the wrong room. The rest of this book will keep returning to this test: is this word in the right room?

> THE TAKEAWAY
> English has an everyday vocabulary and a Latinate one. Fluency is choosing between them on purpose.

BETWEEN CHAPTERS 2 AND 3

Register-Switch Drill

You know both registers now. This is where you prove you can move between them on demand — which is what fluency actually is. Cover the right-hand column. Say your version out loud before you look.

CASUAL → PROFESSIONAL

You'd say it in the hallway	You'd write it in the report
"We gotta figure out if this plan is doable."	We need to ascertain whether this strategy is feasible .
"The committee started looking into how to lessen the risk."	The committee initiated an investigation to mitigate the risk .
"Can you back up your claim with some proof?"	Can you substantiate your claim with evidence ?
"We need to put together a list of what we need."	We need to compile a list of requirements .
"We gotta deal with this before it gets bigger."	We need to address this issue before it escalates .

PROFESSIONAL → CASUAL

You read it in an email	You'd say it to a colleague
"The company implemented measures to mitigate the impact."	They put in place ways to lessen the hit.
"The team collaborated to formulate a response."	The team worked together to put together an answer.
"Could you substantiate that with empirical evidence?"	Can you back that up with proof ?

The takeaway: fluency is not knowing the harder word. It is knowing which one the room wants.

CHAPTER 3

Phrasal Verb Mapping

The other half of English — and the fix for sounding "translated"

Here is a trap specific to Portuguese speakers: because Latinate words are easy for you to recognize, it's tempting to use them everywhere — including in casual conversation, where native speakers default to phrasal verbs instead. "I need to investigate this" is correct but stiff in a hallway conversation; "I need to look into this" is what a colleague would actually say. Fluency means owning both sides of each pair below, not just the Latinate half.

FORMAL / LATINATE	EVERYDAY / PHRASAL	USAGE NOTE
postpone	put off	fully interchangeable in most contexts; put off is more common in speech.
cancel	call off	interchangeable; call off is standard spoken English.
discover	find out	splits by object: find out works for facts/information ("I found out she quit"); discover is required for physical/first discoveries ("Columbus discovered America," not found out).
investigate	look into	look into is lighter — a quick check. investigate implies a formal, thorough process. Not a perfect 1:1 swap.
tolerate	put up with	put up with often carries mild frustration that tolerate doesn't necessarily imply.
continue	carry on	interchangeable in most everyday contexts.
establish	set up	interchangeable for organizations/systems; establish is required in formal/legal contexts ("establish jurisdiction").
return	give back	give back is specifically for physical objects; return also works abstractly ("return to a topic") where give back does not.

COMO USAR ESTA SEÇÃO

FOCO DESTA SEÇÃO: as famílias de phrasal verbs e seus equivalentes formais.
SEU OBJETIVO: entender os phrasal verbs que você vai ouvir todos os dias no Canadá.

extinguish	put out	interchangeable for fire; extinguish also works abstractly ("extinguish hope") where put out does not.
resolve	work out	interchangeable for problems; resolve is more formal/final ("the dispute was resolved" vs. "we worked it out").
invent	come up with	come up with is broader — ideas, excuses, plans, not just inventions.
propose	put forward	interchangeable; put forward is common in meetings ("I'd like to put forward a suggestion").
reject	turn down	interchangeable; turn down is the default in speech, reject is more common in writing/formal decisions.
support	back up	back up is more casual and personal; support works in both registers.
contact	reach out (to)	reach out is now standard workplace English but was originally more casual/personal — watch overuse in formal writing.
monitor	keep track of	interchangeable; keep track of is the natural spoken default.
delay	hold off (on)	interchangeable; hold off implies a deliberate pause, not just lateness.
remove	take away	interchangeable for most objects; take away also means "takeout food" in British/Canadian English — context makes the sense clear.
reduce	cut back (on)	interchangeable, especially for spending, hours, or consumption ("cut back on sugar").

acquire (a skill)	pick up	interchangeable for skills/habits ("pick up a language"); acquire is more natural for formal/legal contexts ("acquire a company"), where pick up doesn't work at all.
comprehend	figure out	not a clean swap: figure out implies solving something through effort; comprehend is simply understanding, with no problem-solving implication.
mention	bring up	interchangeable in conversation; bring up is the near-universal spoken default.
submit	hand in	interchangeable for schoolwork/paperwork; submit is required in broader contexts hand in doesn't cover ("submit to a review process", "submit an application online").
review	go over	interchangeable for checking work together; go over implies a shared, spoken walkthrough more than a solo review does.
discuss	talk over	mostly interchangeable; watch "talk over someone," a different, unrelated phrase meaning to interrupt.
communicate	get across	not a clean swap: get across specifically means "make understood," narrower than the general verb communicate.
resist	push back (against)	interchangeable for opposing an idea or decision; push back also has an unrelated literal, physical sense.
launch	roll out	interchangeable for products, features, and policies; roll out implies a phased release, launch doesn't necessarily.
expand	scale up	interchangeable in a business/startup context specifically; expand is broader and works outside business too.
reduce / contract	scale down	same relationship as above — scale up/scale down are a

		business-register phrasal pair, not general-purpose.
conclude	wrap up	interchangeable for finishing a meeting or task; wrap up is markedly more casual and common in speech.
participate (in)	take part (in)	fully interchangeable.
contribute	chip in	chip in most often implies a small, often financial contribution ("we all chipped in for the gift") — narrower than the general verb contribute.
assist	help out	fully interchangeable; help out is the default in casual speech.

eliminate	get rid of	interchangeable in most contexts; eliminate is required in technical or competitive writing ("eliminate variables," "eliminate a competitor").
examine	look over	look over is quicker and more casual; examine implies a closer, more formal inspection ("the doctor examined the patient," not looked her over).
distribute	hand out	interchangeable for handing out items in person; distribute is required for broader distribution ("distribute a memo company-wide").
accumulate	build up	interchangeable for things that grow gradually — debt, stress, evidence; accumulate is the only option in strict financial or scientific writing.
compensate	make up for	mostly interchangeable; compensate is required when money is involved ("the company compensated him for the loss").
request	ask for	fully interchangeable in most contexts; request is the default in formal written English — forms, emails to strangers.
negotiate	hash out	hash out implies a longer, sometimes contentious back-and-forth; negotiate is neutral and works in any register.
clarify	spell out	spell out is more emphatic, implying the other person is missing something obvious; clarify is neutral.
summarize	sum up	fully interchangeable; sum up is very slightly more casual and more common in speech.
abandon	give up (on)	give up (on) works for plans, goals, and people; abandon is stronger and required for physical objects or places ("abandon ship").

⚠ NOT ALWAYS A CLEAN SWAP — notice discover/find out and investigate/look into above. Several pairs in this chapter diverge in register or scope. Read the usage note before assuming a pair is interchangeable in every sentence.

A different case: phrasal expressions with no formal twin at all

Not every common workplace phrasal verb has a natural single-word Latinate counterpart. Forcing a pairing here would be dishonest, so these are presented as what they are — everyday workplace idioms, full stop:

follow up (on) — check on the status of something already started. Closest formal phrase: pursue further (rarely a single word).

circle back (to) — return to a topic later. Closest formal phrase: revisit at a later time.

touch base (with) — make brief contact to stay updated. No real formal equivalent — this phrase is already the standard register for this specific meeting-culture idea, in speech and in email.

Phrasal Families

Students meet phrasal verbs and see chaos — thousands of unrelated pairs, apparently invented to make English harder. They are not unrelated. They run in families, and each family has a logic you can feel once you see it laid out. Learn the family, and you stop memorizing one at a time.

THE PUT FAMILY — placing something somewhere, literally or not

Phrasal	Formal twin	Example
put off	postpone	"Don't put off the deadline."
put forward	propose	"She put forward a strong idea."
put out	publish / extinguish	"We put out a press release."
put up with	tolerate	"I can't put up with the noise."
put together	compile / assemble	"I put together the report."
put in place	implement	"We put new rules in place."

THE GET FAMILY — obtaining, arriving, achieving

Phrasal	Formal twin	Example
get across	communicate	"Did you get your point across?"
get back to	respond later	"I'll get back to you tomorrow."
get rid of	eliminate	"Let's get rid of the old system."
get hold of	obtain / contact	"I need to get hold of the manager."
get the word out	disseminate	"We need to get the word out."

Phrasal Families

THE TAKE FAMILY — accepting, assuming, removing

Phrasal	Formal twin	Example
take on	hire / assume	"We're taking on three interns."
take over	assume control	"She took over as director."
take part in	participate	"Did you take part in the survey?"
take up	occupy (time or space)	"This project takes up all my time."
take away	remove / conclude	"What did you take away from the training?"

THE COME FAMILY — arriving, arising, encountering

Phrasal	Formal twin	Example
come up with	devise / propose	"We came up with a solution."
come across	encounter by chance	"I came across an old email."
come up	arise	"Something came up; I'm running late."
come back to	revisit	"Let's come back to this later."

NO FORMAL TWIN

Some phrasal verbs have no Latinate equivalent at all. There is no single formal word for follow up on , circle back to , touch base with , or check in . These are not lazy English. They are the real vocabulary of a Canadian working week, and you will hear all four in your first month.

False Friends

When Portuguese gives you a clue — and when it gives you a trap

Four More That Catch Everyone

These four are not exotic. They appear in ordinary workplace conversation, and every one of them changes your meaning rather than merely sounding odd.

The Twenty Most Dangerous

THE TAKEAWAY

Don't learn words alone. Learn the words that travel with them.

CHAPTER 5

Chunking & Natural Collocations

Learn the multi-word unit, not the isolated word

Native speakers don't build sentences one word at a time — they retrieve whole chunks. Knowing mitigate is far less useful than knowing mitigate risk. This chapter reframes vocabulary as combinations, not items.

Verb + noun

make a decision · reach a consensus · meet a deadline · allocate resources · address an issue · raise a concern · draw a conclusion · provide evidence · exercise caution · take responsibility for · reach an agreement · take action · make progress · set a precedent · pose a threat · place emphasis on

Verb + preposition

depend on · contribute to · participate in · comply with · account for · result in · consist of · refer to · deal with · apply for · invest in · benefit from

Adjective + preposition

responsible for · capable of · committed to · familiar with · consistent with · concerned about · eligible for · aware of · dependent on · involved in

Institutional openers

I'm writing to inquire about… · With regard to… · As a result of… · In light of… · To the best of my knowledge… · It is worth noting that… · Please be advised that… · Should you have any questions, please… · I look forward to hearing from you. · Enclosed please find… · Kindly note that…

Present-perfect life-story formulas

I've been working here for… · I've known ___ since… · Have you ever been to…? · I've never… · I haven't ___ yet. · She's lived here for… · They've just finished… · We've already discussed this. · I've always wanted to… · Have you ever tried…?

These formulas matter more than the grammar rule behind them. A Brazilian learner who memorizes "I've been living here for five years" as a fixed chunk will use the present perfect correctly in conversation long before they could explain the rule on a whiteboard.

INTERLUDE

The Connector Code

Native speakers do not build an argument one sentence at a time. They signal the relationship between ideas with small, high-frequency words that work like traffic signs. Brazilian professionals tend to underuse them — or lean on but and so until the English sounds like translated Portuguese.

This is not a grammar lesson. It is a register toolkit. Master these twelve and your sentences will join up the way a native speaker's do.

Connecting back to the code:
Notice how many of these words — application, eligibility, documentation, verification, credential, reference — are built from exactly the same Latin pieces taught in Chapter 1. This isn't a separate vocabulary to memorize from scratch. A student who has genuinely learned the code by this point in the book should be able to guess the meaning of most of these terms on sight, the same way they'll learn to guess transport or discredit in the chapter that follows.

DISTRACT

PERMIT
= per (through) + mit (send) → to send through — to allow

ERUPT
= e (out) + rupt (break) → to break out

CHAPTER 7

The Five-Step Decoder

You have been decoding all along. This is the method written down, so you can use it deliberately on a word this book never covers.

	Step	What you do
1	Find the prefix	The piece at the front that changes direction. trans- , sub- , ex- , re- , con- , inter- , de- , dis- , in- , pro- , pre- , super-
2	Find the root	The core meaning. port (carry), scrib (write), tract (pull), mit (send), vid (see), duc (lead), cred (trust), pos (place), cap (take), fer (bear), spect (look), dict (say)
3	Identify the suffix	The ending that tells you the word's job. -tion and -ment make nouns; -ive and -able make adjectives; -ize and -ate make verbs; -ly makes adverbs.
4	Look for the Portuguese	Your first guess should come from Portuguese. If the root is cred , think crer , credível .
5	Test it in the sentence	Context tells you whether your guess is too broad or too narrow.

Decode It Yourself

Cover the last column. Break each word into its pieces, guess, then check.

Word	Prefix	Root	Your guess
EXPORT	ex- (out)	port (carry)	to carry goods out of a country
SUBSCRIBE	sub- (under)	scrib (write)	to write your name underneath → to sign up
DISTRACT	dis- (away)	tract (pull)	to pull attention away
PERMIT	per- (through)	mit (send)	to send through → to allow
ERUPT	e- (out)	rupt (break)	to break out
CORROBORATE	cor- (together)	robor (strength)	to strengthen together → to confirm
DISCRIMINATE	dis- (apart)	crimin (distinguish)	to tell apart → to differentiate
INTEGRATE	in- (into)	tegr (whole)	to make whole → to combine into one

Once you have walked through the five steps ten or fifteen times they stop being steps and become a reflex. You will see interdisciplinary and think inter (between) + discipl (field of study) + -ary . That is the moment this book has done its job. You are no longer a student of English vocabulary. You are a decoder of it.

CHAPTER 8

The Conversation Code

You can know five thousand words and still freeze when a colleague says something you don't catch. You can understand every word in a meeting and still not know how to jump in. You can have the right idea and still struggle to get it out smoothly.

This chapter fixes that.

The Conversation Code is not vocabulary. It is repair — the phrases native speakers use to manage a conversation when understanding breaks down, when they need a moment, when they want to join in, or when they need to correct themselves.

A newcomer who masters these will sound more functionally fluent than someone with twice the vocabulary who goes quiet when lost.

1 · WHEN YOU DON'T UNDERSTAND

Phrase	Register	When to use it
Sorry, could you say that again?	Neutral, polite	You missed the words entirely.
Sorry, I didn't catch that.	Natural workplace	You heard the sound but not the meaning.
Could you speak a little more slowly?	Polite	The person is talking too fast.
What do you mean by that?	Professional	You got the words but not the intention.
Could you clarify that?	Professional	You need the idea explained differently.
Do you mean ...?	Checking	You have a guess and want it confirmed.

COMO USAR ESTA SEÇÃO

Os próximos capítulos tratam do inglês falado. Leia em voz alta sempre que possível — estas páginas preparam você para ouvir, não apenas para ler.
FOCO DESTA SEÇÃO: o inglês falado: conversa, pronúncia e metáfora.
SEU OBJETIVO: manter uma conversa e entender o inglês falado no ritmo real.

The Conversation Code

2 · WHEN YOU NEED A MOMENT

Phrase	Register	What it does
Let me think about that.	Neutral	Direct and honest.
That's an interesting question.	Polite	Buys time, shows respect.
Let me put it another way.	Professional	You are about to rephrase yourself.
What I'm trying to say is...	Natural	You are hunting for the right word.
How can I put this?	Natural	Signals you are choosing words carefully.

3 · WHEN YOU WANT TO PARTICIPATE

Phrase	Register	Use
I'd like to add something.	Formal meeting	You have new information.
I see your point, but...	Professional	Polite disagreement.
That's a good point.	Natural	Acknowledge before you pivot.
From my perspective...	Professional	Introduces your viewpoint.
In my experience...	Professional	Adds authority to your comment.

> THE TAKEAWAY
>
> Professional English thinks in pictures. Learn the picture and the phrase comes free.

4 · WHEN YOU WANT TO CHECK YOU'VE UNDERSTOOD

Phrase	Register	Use
So, if I understand you correctly...	Professional	Summarise and verify.
Just to make sure I've understood...	Professional	Slightly more formal.
Are you saying that...?	Natural	A direct check.
So what you're suggesting is...	Natural	Reframe their idea in your words.

5 · WHEN YOU NEED TO CORRECT YOURSELF

Phrase	Register	Use
Sorry, let me rephrase that.	Professional	You chose the wrong word or register.
That's not quite what I meant.	Natural	A soft correction.
What I meant was...	Natural	Direct replacement.
Actually, what I meant to say is...	Natural	Common in fast conversation.

The Courage to Repair

Here is the exchange in full. Notice that the repair costs one sentence and saves the whole conversation.

> Colleague: "We need to circle back on the deliverables before EOD."
> You: "Sorry, I didn't catch that. Do you mean we need to review the deliverables before the end of the day?"
> Colleague: "Exactly."

Native speakers use these phrases constantly. They say "Sorry, what was that?" and "Could you clarify?" dozens of times a day. They do not experience it as failure. They experience it as conversation maintenance.

Your goal is not to speak English without ever needing repair. Your goal is to repair so smoothly that the conversation never breaks.

> THE TAKEAWAY
> Fluent communication is not the absence of misunderstanding. It is knowing how to recover from it.

CHAPTER 9

The Pronunciation Code

> NOTA
> Este capítulo não ensina pronúncia — ele prepara você para ouvi-la. Aqui você aprende o que escutar no Canadá. Na Parte II, você treina isso com o professor.

This is not a pronunciation textbook. Part II is your pronunciation laboratory, where you and your teacher will drill sounds, stress and intonation for hours.

This chapter answers a narrower question: why do I say a word perfectly in my head, and it comes out wrong?

Portuguese and English share Latin roots. They do not share Latin pronunciation habits. What follows are the five interference points that matter most — so you know what to listen for before the real work begins.

1 · WORD STRESS

English moves the stress when the ending changes. Portuguese usually does not, which is why a familiar word can come out unrecognisable.

Pattern	Portuguese	English
-tion words	informa ção	infor MA tion
-ity words	ativida de	ac TI vity
-ic words	econômi co	eco NO mic
noun vs verb	—	RE cord (noun) vs re CORD (verb)

The Pronunciation Code

SAY THESE ALOUD

deCIDE → deCIsion → deCIsive · aNAL ysis · hyPOTH esis · emPIR ical · PHO tograph → phoTOG raphy → photoGRAPH ic

2 · THE SCHWA /ə/

English collapses every unstressed vowel toward one lazy sound. Portuguese keeps its vowels clean. This single difference accounts for more misunderstanding than any consonant.

Word	What learners often say	What Canadians say
about	a-BOUT, with a clear a	ə-BOUT
support	soo-PORT	sə-PORT
professional	pro-fes-si-O-nal	prə-FE -shə-nəl
computer	com-PU-ter, clear vowels	kəm-PYOO -tər
Canada	CA-na-da	CA -nə-də

The rule: if a syllable is not stressed, it probably becomes /ə/.

The Pronunciation Code

3 · FINAL CONSONANTS

English final consonants carry grammar. Sent versus send , worked versus work , results versus result . Dropping them does not create an accent — it creates confusion.

Sound	Example	The risk
/t/	"I sent it"	"I sen' it" — the tense disappears.
/d/	"We decided"	"We decide'"
/k/	"the report back"	"the report ba'"
/s/ /z/	"the results"	"the result'" — singular or plural?

4 · GRAMMAR ENDINGS

Ending	Sounds like	After
-s	/s/	voiceless sounds — works, stops, books
-s	/z/	voiced sounds — plays, jobs, calls
-s	/ɪz/	sibilants — watches, boxes, bridges
-ed	/t/	voiceless sounds — worked, stopped, walked
-ed	/d/	voiced sounds — played, called, opened
-ed	/ɪd/	after /t/ or /d/ — wanted, needed, decided

The Pronunciation Code

5 · SENTENCE STRESS AND THOUGHT GROUPS

Which word you stress changes what the sentence means.

You say	It means
I did send it.	I did — whatever you thought.
I did send it.	I sent it; I didn't bring it.
I did send it YESterday.	The timing is the point.

English also runs words together in groups, not one at a time. Instead of I / would / like / to / ask / you , say I'd like to ask you / about your application. Two breath-units, not six words.

PRACTISE AS SINGLE UNITS

I'd like to follow up on / the proposal we discussed.

Could you clarify / what you mean by that?

We need to mitigate / the risk before launch.

You now understand the code. Part II is where you train it.

> **THE TAKEAWAY**
> You need to understand spoken English, not merely pronounce written English.

CHAPTER 10

The Metaphor Code

English business speech is not literal. Teams "attack problems," ideas "bear fruit," and companies "navigate challenges." None of that can be decoded word by word — it has to be recognized as a pattern. This chapter maps the eight metaphor families that generate most of the figurative language you will hear in Canadian meetings, so you can recognize the pattern instead of getting stuck on individual words.

THE EIGHT DOMAINS

Business Is War
Business Is a Journey
Business Is a Machine
Business Is Sports
Business Is Construction
Time Is Money
Ideas Are Plants
Business Is a Ship

Business Is War

Competition is framed as combat: companies attack, defend, and win ground.

attack the problem
to address it directly and aggressively.
"Let's attack the problem before it grows."
atacar o problema — direct cognate, works the same way.

defend your position
to justify and hold firm on your view.
"She defended her position well in the meeting."
defender sua posição — direct cognate.

market share
the portion of total sales a company controls.
"We gained market share this quarter."
fatia de mercado — literally "market slice," the standard term.

competitive advantage
an edge that makes you better than rivals.
"Our data gives us a competitive advantage."
vantagem competitiva — direct cognate.

win the deal
to successfully close a sale or contract.
"We won the deal after three rounds of talks."
fechar o negócio — literally "close the deal"; ganhar sounds unnatural here.

Business Is a Journey

Projects and careers are framed as travel: you move forward, stay on track, or get derailed.

roadmap
a plan showing the steps ahead.
"Here's our product roadmap for the year."
roteiro — not a literal "road map"; this is the natural business term.

milestone
a significant point marking progress.
"Launch is our next milestone."
marco — direct cognate, very common in Portuguese too.

on track
progressing as planned.
"The project is on track for June."
no caminho certo / dentro do prazo — no single-word cognate.

derailed
knocked off course, disrupted.
"The merger got derailed by regulators."
descarrilar — direct cognate, used figuratively in Portuguese too.

moving forward
going ahead; from this point on.
"Moving forward, let's meet weekly."
daqui para frente / seguindo em frente — no single-word cognate.

Business Is a Machine

Organizations are framed as mechanisms: they run smoothly, jam up, or break down.

streamline
to make a process simpler and more efficient.
"We streamlined the approval process."
simplificar / otimizar — no single-word cognate for the business sense.

bottleneck
a point that slows down the whole process.
"Approvals are the bottleneck right now."
gargalo — direct cognate, extremely common in Brazilian business speech.

well-oiled machine
an operation that runs efficiently.
"Her team runs like a well-oiled machine."
uma máquina bem azeitada — the same image works directly.

running smoothly
operating without problems.
"Everything's running smoothly so far."
funcionando bem / rodando liso — no exact single-word match.

breakdown
a failure or collapse in a process.
"There was a breakdown in communication."
colapso — avaria exists but sounds too literally mechanical here.

Business Is Sports

Teams compete, play by rules, and score wins — but be careful: several of these have no equivalent in Brazil's sporting culture.

level playing field

a fair, equal starting position for everyone.
"New regulations created a level playing field."
condições iguais / jogo justo — no direct "level field" image in Portuguese.

game plan

a strategy for achieving a goal.
"What's our game plan for the launch?"
plano de jogo — works directly.

drop the ball

to fail at a responsibility.
"We dropped the ball on that follow-up."
⚠ no sports equivalent in Portuguese — use deixar passar or falhar.

home run

a major, unambiguous success.
"That campaign was a home run."
⚠ baseball isn't part of Brazilian culture — use grande sucesso instead.

ballpark figure

a rough estimate.
"Give me a ballpark figure for the budget."
⚠ same issue — use valor aproximado or estimativa.

Business Is Construction

Plans and arguments are framed as structures: you build them on a foundation, piece by piece.

build a case

to assemble evidence and reasoning.
"He built a strong case for the new hire."
construir um caso / argumentar — construir works directly.

foundation

the basic groundwork everything rests on.
"Trust is the foundation of this partnership."
base / fundação — base is far more common for abstract uses.

framework

a structure for organizing ideas or work.
"We need a framework for decision-making."
estrutura / arcabouço — estrutura is the everyday choice.

pillar

a fundamental, load-bearing element.
"Innovation is a pillar of our strategy."
pilar — direct cognate, common in Brazilian business Portuguese.

groundwork

preliminary work that supports what follows.
"We laid the groundwork last quarter."
alicerce / base — no exact single-word cognate.

Time Is Money

Time is treated as a resource you spend, save, invest, or waste — exactly like currency.

spend time
to use time on something.
"We spent too much time on formatting."
gastar tempo — direct cognate.

invest time
to commit time expecting future benefit.
"Invest time in the relationship early."
investir tempo — direct cognate.

budget your time
to plan how much time to allocate.
"Budget your time before the deadline."
administrar seu tempo — no verb "budget" equivalent in this sense.

worth it
valuable enough to justify the cost.
"The extra hour was worth it."
vale a pena — the standard fixed expression.

waste time
to use time with no benefit.
"Don't waste time on that report."
perder tempo — literally "lose time," not "waste."

Ideas Are Plants

Ideas and relationships are framed as living things that grow: you plant them, cultivate them, and watch them bear fruit.

seed an idea

to introduce an idea early so it can develop.
"She seeded the idea months before the pitch."
plantar uma ideia — the same image works directly.

grow the business

to expand it.
"Our goal is to grow the business regionally."
fazer crescer o negócio / expandir — crescer works directly.

cultivate relationships

to deliberately build and nurture connections.
"He's good at cultivating client relationships."
cultivar relacionamentos — direct cognate.

causa raiz — direct cognate, common in Brazilian business Portuguese.

bear fruit

to produce results.
"The new strategy is starting to bear fruit."
dar frutos — the same image works directly.

Business Is a Ship

Leaders steer, teams navigate, and the whole company either sails smoothly or runs into rough water.

steer the company

to guide its overall direction.
"She's steered the company through two recessions."
conduzir / guiar a empresa — no direct nautical equivalent commonly used.

navigate challenges

to find a way through difficulties.
"We navigated the challenges of a remote team."
navegar pelos desafios — the same image works directly.

on course

proceeding as intended toward a goal.
"We're on course to hit our targets."
no rumo certo — no single-word cognate.

all hands on deck

everyone needs to help immediately.
"It's crunch time — all hands on deck."
⚠ no nautical equivalent in Portuguese — use todo mundo precisa ajudar.

smooth sailing

an easy, trouble-free process.
"After launch, it was smooth sailing."
tudo tranquilo / sem percalços — no exact nautical match.

CHAPTER 11

The Brazilian Interference Code

Where Portuguese stops helping and starts speaking for you

COMO USAR ESTA SEÇÃO

Leia cada padrão em voz alta na versão em inglês. O que você está aprendendo é a forma da frase, não a frase em si.

FOCO DESTA SEÇÃO: os padrões do português que atravessam para o inglês.

SEU OBJETIVO: reconhecer, na sua própria fala, os padrões do português que atravessam para o inglês.

Chapter 4 showed you words that betray you. This chapter is about something quieter and more persistent: sentences that betray you.

A false friend is a single word, and once you learn it, you have learned it. Interference is different. It is your Portuguese grammar arriving underneath your English words — the structure transfers even when the vocabulary is perfect. You can know every word in the sentence and still build it the Portuguese way.

These errors have three things in common. They are small. They are frequent. And they mark you instantly as a Portuguese speaker, because no other language group makes them.

They are also the easiest errors in this book to fix, for one reason: there are not many of them. A Canadian colleague will hear the same eight patterns from every Brazilian they work with. Learn those, and you remove most of what separates your English from the room's.

THE DIFFERENCE THAT MATTERS

A false friend produces a wrong meaning . Interference produces a correct meaning in a foreign shape — you are understood, and you sound translated. That is why nobody corrects it. It is not wrong enough to interrupt the conversation.

Which means you will not discover these on your own. Nobody will tell you. Read them here.

THE TAKEAWAY

Your accent is in your mouth. Your interference is in your sentences.

The Eight That Give You Away

Say the English version aloud. The shape is what you are learning, not the sentence.

I work here since 2023.	Trabalho aqui desde 2023.	I've worked here since 2023.
People is friendly here.	O pessoal é simpático.	People are friendly here.

Two of these — have for age and since with a simple present — are so regular that a Canadian ear can identify a Brazilian speaker from one sentence.

Words That Refuse to Be Counted

Portuguese counts them. English does not. That is the whole rule.

Some English nouns cannot take a, and cannot take -s. Their Portuguese equivalents can do both, which is exactly why this error is so persistent — you are not guessing, you are translating correctly.

PORTUGUESE	NOT THIS	THIS
um conselho / conselhos	an advice · advices	some advice · a piece of advice
uma informação	an information	some information · a piece of information
equipamentos	equipments	some equipment
um feedback	a feedback	some feedback
conhecimentos	knowledges	knowledge
uma pesquisa	a research	a study · some research

THE FIX THAT ALWAYS WORKS

When you need to count one of these, reach for a piece of, or reach for a different noun. She gave me some good advice. She gave me a useful suggestion. Both are natural. Neither requires you to remember a rule under pressure.

You will notice this is the only grammar in this book. It earns its place because it is not really grammar — it is Portuguese, arriving in English.

The Interference Rule

Correct the pattern, not the sentence

When a teacher corrects "I have 30 years" to "I'm 30 years old," you have repaired one sentence. Next week you will say it again, because the sentence was never the problem. The pattern underneath it was.

So record it as a pattern. Four lines, in a notebook you keep for exactly this:

PORTUGUESE PATTERN ter + número + anos
ENGLISH PATTERN be + number + years old
MY SENTENCE I'm 34 years old and I've worked in logistics for ten years.
REUSE Said it in Tuesday's lesson. Said it again at the bank.

The third line matters more than the second. A pattern you have never put your own life into is a pattern you will not retrieve in a meeting. Use your real age, your real city, your real job.

The fourth line is the one almost nobody writes, and it is the one that ends the error. An interference pattern does not disappear when you understand it. It disappears when you have produced the English version more times than the Portuguese one.

YOUR TURN

Take the eight patterns on the previous page. Find the two you know you make. Write those two as four lines each, tonight, before you read another chapter.

> THE TAKEAWAY
> You do not stop making an error by learning it. You stop by replacing it.

CHAPTER 12

Using AI With This Book

An excellent drill partner. A poor teacher.

USANDO IA COM ESTE LIVRO

Uma inteligência artificial é um bom parceiro de treino e um péssimo professor. Ela nunca se cansa de te corrigir e nunca ouve a sua voz. Use-a para praticar o que este livro ensina — e use o professor para aquilo que só uma pessoa consegue fazer.

An AI will practise with you at two in the morning and never lose patience. Use that. But be precise about what it is good for.

Most people ask an AI to teach them English. That is the wrong instruction, and it produces the wrong result — a lecture you did not need, in a register nobody uses, about a language you are trying to speak rather than study.

THE AI RULE

Do not ask it to teach. Give it a job.

INSTEAD OF "Teach me English."

SAY "Act as my Canadian manager. Ask me one question at a time. Correct only serious errors after I answer. Then ask a follow-up."

The second prompt works because it names a role, a format, a correction policy, and a next step. Every good prompt in this chapter does the same four things.

The AI English Lab

Six jobs worth giving it. Copy them as written.

VOCABULARY

"Test me on these ten words. One question at a time. Do not show the answer until I respond."

REGISTER

"Give me three versions of this sentence: casual, neutral workplace, and formal professional. Tell me which fits a first email to a manager I have not met."

FALSE FRIENDS

"Give me a Portuguese sentence containing a common false friend. I will translate it. Then correct me."

CORRECTION

"Correct my English but preserve my meaning. Show me the natural Canadian version and explain only the most important correction."

INTERFERENCE

"Here are two errors I make. Give me ten sentences that force the correct pattern, about work in Canada."

INTERVIEW

"Conduct a Canadian job interview. One question at a time. After each answer, one strength and one improvement."

Notice what these have in common. Each one asks for one thing at a time and requires you to answer before it continues. An AI will happily produce forty sentences you will never read. Force it to wait for you, and it becomes practice instead of reading.

What It Cannot Do

Read this page twice. It is the reason you still need a lesson.

It cannot hear you.

It cannot tell you that you are dropping the -ed, or that your th is landing as a d, or that your sentence stress is falling on the wrong word and changing what you meant. It will confirm that your pronunciation is excellent, warmly and immediately, because it has no idea.

This is not a small gap. Chapter 9 taught you what to listen for precisely because you cannot hear yourself — a learner who says work-ee believes they are saying worked. The sound is invisible from the inside. A machine that reads your typing cannot reach it.

It also does not know Canada the way a person in Canada does. It will not tell you that your phrase is technically correct but sounds strange in a Vancouver office, or that the sentence you are proud of would land badly with the manager you are about to meet.

THE DIVISION OF LABOUR

Give the machine: repetition, retrieval, drilling, patience at midnight.

Give the person: your voice, your errors, your reformulation, the room.

Use it as a drill partner. Then bring what keeps going wrong to your lesson — because the correction you need most is the one you cannot hear yourself needing.

THE TAKEAWAY

Practise with the machine. Learn with the person.

Four Myths About Learning English

You have been told things about learning English that are not true. They are not malicious. They are just repeated so often that nobody checks them. Each one costs you time, and one of them costs you years.

MYTH 1 — "I need perfect grammar before I speak."

No. You need grammar that carries meaning accurately. Those are different targets.

A Canadian manager will not remember that you said "I have worked here since three years." She will remember that you had an opinion about the budget and expressed it clearly. Grammar that is wrong but clear costs you almost nothing. Silence costs you the room.

The order is clear → accurate → natural. Not perfect first.

MYTH 2 — "I need to memorize thousands of words."

No. You need to see how words connect.

Take interdependence . You do not memorize it. You take it apart: inter- (between) + depend (hang from) + -ence (noun). Portuguese hands you the confirmation: interdependência.

You did not learn a word. You proved you already owned it.

Four Myths About Learning English

MYTH 3 — "I shouldn't speak until I'm ready."

This is the expensive one.

You do not become ready and then speak. You speak and then become ready. Waiting is a loop that never closes: you don't speak, so you don't practise, so you don't improve, so you still don't feel ready.

Replace it with a different loop: speak → make a mistake → notice → correct → use it again. That last step is the whole point. A mistake you correct and reuse is worth more than ten sentences you got right by accident.

MYTH 4 — "I need to memorize every new word I meet."

No. You need to decode, connect, and reuse.

When an unfamiliar word arrives, ask five questions. Do I recognize the prefix? The root? The suffix? Does it resemble Portuguese? Does the sentence confirm my guess?

Then — and this is the part people skip — use it that same week.

You are not building a warehouse of vocabulary. You are building a network you can retrieve from under pressure, in a meeting, when someone is waiting for you to finish your sentence.

The Five Habits of the Code

Everything in this book reduces to five habits. They are the same five whether the word is mitigate on page 19 or a word you meet in a Toronto meeting in three years.

	The habit	What you actually do
1	CONNECT	What Portuguese word does this look like? What root does it carry?
2	DECODE	Break it into prefix, root, suffix.
3	TEST	Read the sentence again. Does your guess survive the context?
4	TRANSFER	What is its everyday twin? Its phrasal twin? Its family?
5	USE	Put it in your own sentence, out loud, this week.

Four of these you can do alone, on this page, tonight.

The fifth needs a listener.

END OF PART I

From Knowing to Speaking

Part I has given you a system: Connect → Decode → Test → Transfer → Use.

You can now take an unfamiliar English word apart and make a confident guess about its meaning. You know which words belong in a boardroom and which belong in a hallway. You know where Portuguese helps you and where it will quietly embarrass you.

That is knowledge. It is not yet speech.

Understanding English and producing clear English are different skills, trained differently. You can read every page of this book, score perfectly on every checkpoint, and still freeze when a colleague asks you a direct question in a meeting. Almost every learner who has ever stalled at "intermediate" stalled exactly here.

Part I taught you what English means.

Part II is where you learn to say it.

“IT IS YOUR DUTY TO SAVE YOUR DREAM”

AMEDEO MODIGLIANI

PART II

Part II Is Different

> **PARTE II É DIFERENTE**
> A Parte I foi escrita para você estudar sozinho. A Parte II não é um capítulo para ler — é o material das suas aulas individuais. Aqui você vai falar: pronunciar, praticar, discutir cada tema e ser corrigido. Pronúncia é o começo. Conversa é o objetivo.

Part I was designed for you to study alone. Part II was not.

What follows is not a chapter to read. It is the material for your lessons — organized by the life you are actually building here: landing, banking, renting, studying, interviewing, working, raising a family. Thousands of words, arranged by the room you will be standing in when you need them.

Do not memorize this section. Speak it.

HOW A LESSON WORKS

	Stage	What happens
1	Pronunciation	Your teacher picks a target — worked · asked · helped — and you produce the ending until it is automatic.
2	Controlled speaking	You use the target in your own sentences. "I worked in São Paulo for ten years."
3	Discussion	You talk properly — about your career, your field, your first month in Canada. At length.
4	Correction	Pronunciation, word choice, natural phrasing.
5	Reformulation	You said "I have much experience." Your teacher gives you "I have a lot of experience."
6	Reuse	You say it again. And it returns next lesson.

> **COMO USAR ESTA SEÇÃO**
> Esta parte é diferente. Ela é o material das suas aulas — não um capítulo para estudar sozinho. Seu professor vai selecionar o vocabulário mais relevante para o seu nível, para os seus objetivos e para a sua vida no Canadá.
> FOCO DESTA SEÇÃO: o vocabulário temático das suas aulas, organizado pela vida que você está construindo no Canadá.
> SEU OBJETIVO: usar estas páginas com o seu professor, não estudá-las sozinho.
> PARTE I: estude sozinho. PARTE II: use com o professor.

Why It Must Be One to One

Step 6 is the one that matters. Anyone can be corrected. Almost nobody is made to use the correction until it becomes theirs.

Your pronunciation problems are yours. Two Brazilians with identical grammar and identical vocabulary can have completely different accents, and they need completely different lessons.

There is also something you cannot do alone: you cannot hear yourself accurately. A learner who says work-ee believes they are saying worked. They are not being careless — the sound is genuinely invisible from the inside. Only another person can catch it, demonstrate it, and make you produce it correctly under pressure.

That is what these pages are for.

> THE TAKEAWAY
> You are not learning English to talk about English. You are learning it to be understood, hired, and promoted.

Amanda, Lawyer

Ron é um professor fenomenal e um ser humano incrível. Ele me ajudou em várias frentes no processo de aprendizagem, incluindo pronuncia, vocabulário e gramatica. No entanto, Ron vai muito além do que podemos esperar de um professor de Inglês, pois ele trabalha nossa confiança, nos ensina sobre a cultura canadense, nos prepara para entrevistas de emprego estudando sobre as empresas e vagas, oferece apoio e uma preocupação genuína com seus alunos. As aulas são personalizadas, leves, engraçadas e dinâmicas. Ron já trabalhou com tantos alunos brasileiros, que conhece todas as dificuldades que enfrentamos, como por exemplo, a pronuncia de alguns sons. Não tenho palavras suficientes para agradece-lo!

TESTIMONIALS

Leticia, Lawyer

Tive a sorte de encontrar o Ron como meu professor de inglês. Desde o início, admirei seu compromisso e sua habilidade em adaptar as aulas às minhas necessidades específicas. Ele é extremamente ágil em responder minhas dúvidas, enviar as notas após a aula e sempre fornece dicas de leitura ou vídeos que enriquecem ainda mais meu aprendizado. Suas aulas são cuidadosamente planejadas para incluir uma variedade de temas e contextos, desafiando-nos a falar e nos expressar além das conversas cotidianas, abordando também assuntos complexos e variados. Ron também é super atencioso ao escutar nossa pronúncia, garantindo que a cada dia falamos com mais clareza e confiança. O Ron se destaca não apenas pelo seu profissionalismo, mas também pela sua dedicação e autêntico interesse em ver seus alunos progredirem. Recomendo suas aulas a qualquer pessoa que queira avançar no inglês de forma rápida, divertida e eficaz.

Eu gosto bastante do formato das aulas, que nos possibilita conversar sobre vários assuntos e ideias diferentes e que tornam as aulas dinâmicas e muito agradáveis. E ainda vale ressaltar, que o Ron é um cara muito gente boa e sempre muito disposto a ajudar no que for preciso. Tem valido muito a pena!

He estado aprendiendo Inglés con Ron Taylor desde Agosto de 2020 y aún continúo con él. Él me ayudó a mejorar mi Inglés conversacional y a prepararme para el examen de IELTS para la ciudadanía Canadiense. También me ayuda mucho a aprender expresiones y formas de comunicarse que solo los hablantes nativos conocen y usan. Es muy bueno a la hora de mejorar la pronunciación y el vocabulario gracias a su experiencia trabajando en radio. Es una persona sumamente agradable, inteligente y dedicada con su trabajo, se preocupa por conocer a sus estudiantes y aprender de su cultura, es muy amable y te escucha con atención e interés. Tiene un vasto conocimiento de cultura general, por lo que adapta las clases a tus intereses y/o necesidades. También envía artículos de lectura para hablar y discutir durante las clases; además, siempre está dispuesto a leer y corregir tu escritura para que sea correcta y similar a la de un hablante nativo.

TESTIMONIALS

Massimo, Product Manager/Project Lead

Ho avuto la fortuna di incontrare Ron pochi mesi dopo il mio arrivo in Canada, quattro anni fa quando cercavo un insegnante di inglese per migliorare la mia pronuncia per l'esame CELPIP. Visto che avevo poco tempo ho selezionato alcuni insegnanti ma ho deciso di continuare soltanto con Ron dato che si è adattato al mio stile e necessità. Non ha applicato il classico metodo standard come tutti gli altri ma ha cercato, da subito, di capire le mie lacune e difficoltà per potermi aiutare al meglio. E mi ha confortato tutto il tempo passandomi la carica giusta per affrontare l'esame. Ci siamo riusciti. Perchè affidarsi a Ron? Perchè è una persona stupenda oltre che un insegnante eccezionale. Io ho passato l'esame e dopo 3 anni e 3 diverse opportunità lavorative ho deciso di migliorare di nuovo il mio inglese. Facile immaginare chi ho scelto per proseguire il mio percorso di crescita.

Les thématiques se suivent et se répondent, permettant de mobiliser vocabulaire, prononciation, compréhension de manière très eFIcace. D'ailleurs, les références envoyées par Ron entre les séances ouvrent aussi de multiples perspectives. Pendant l'échange, Ron articule les questionnements, les reformulations et des apports personnels. Ainsi, l'échange s'enrichit tout en restant un moment amical très agréable. Ter o Ron como meu professor de inglês foi fundamental para o meu sucesso no "Plano Canadá". Graças à sua dedicação em me ensinar, consegui em menos de um ano morando no Canadá o emprego que eu queria, na minha área de formação e atuação no Brasil. Meu inglês era básico-intermediário e foi o Ron que me preparou para as entrevistas. Desde então, o Ron me auxiliou em todas as etapas da minha trajetória até me tornar cidadã Canadense. Consegui duas promoções na minha área de trabalho e, quando casei, Ron também me ajudou a escrever meus votos de casamento. Tenho muita sorte em tê-lo na minha vida, um professor maravilhoso que tenho muito orgulho de chamar de amigo.

TESTIMONIALS

Cristiane, Business Consultant

Mesmo com vivência profissional em grandes multinacionais americanas no Brasil, percebi que meu inglês teria muito que ser aprimorado para me lançar no mercado Canadense. Aprimorar entonação, accents e pronúncia seria o foco fundamental para galgar sucesso na minha área profissional. Em pouco tempo, as aulas com o Ron aumentaram a minha confiança para fazer apresentações. Ele é incansável em aperfeiçoar minha pronúncia, me encorajando sempre a fazer melhor e elevar meu potencial nas conversações e na escrita. Professor extremamente dedicado, sempre disponibiliza materiais interessantes que me ajudam em vários temas da minha carreira profissional. Hoje, sou praticamente uma viciada em suas aulas. Não vejo como custo, mas como investimento do meu tempo no aperfeiçoamento da língua inglesa para progredir com sucesso e segurança. Recomendo o Ron de olhos fechados.

Quando iniciei o meu mestrado no Canadá em 2017, tive a grata felicidade de ser apresentado ao Ron. Durante os dois anos de curso, Ron me ajudou não somente com as revisões de trabalhos acadêmicos e o uso da língua inglesa, como também me preparou para entrevistas e para ingressar no mercado de trabalho. Por exemplo, quando eu estava me preparando para uma entrevista de emprego, ele focava as aulas neste objetivo e, inclusive, pesquisava sobre a empresa para ser mais eficaz na minha preparação. A adaptabilidade às minhas necessidades é a grande vantagem que encontrei nas aulas do Ron.

Ao mudar para um país de língua inglesa, você terá oportunidades batendo à sua porta e o inglês de excelência será essencial para o seu sucesso. Conheci o Ron por indicação de um colega brasileiro e, desde o primeiro momento da aula, me encantei com o seu método de ensino. Ron busca deixar seus alunos confortáveis, trazendo assuntos comuns aos seus interesses. As aulas se desenvolvem como um bate papo; porém, com correções e críticas construtivas. Mais do que isso, é o quanto Ron se dedica a aprender sobre você. Durante as aulas, ele se lembra de suas preferências e de seu histórico pessoal – contados durante as conversas – o que torna as aulas mais fluidas. Ron é simpático, agradável, educado e tem um ótimo senso de humor.

TESTIMONIALS

Denise, Accountant

Antes de recomeçar minha vida profissional no Canadá em 2017, tive aulas com o Ron duas vezes por semana, por dois anos, voltadas para o mundo corporativo. Isto me ajudou a dar o pontapé inicial na minha carreira profissional. Quando eu tinha entrevistas de emprego agendadas, Ron treinava comigo perguntas que poderiam ser feitas durante as entrevistas. As aulas com o Ron me ajudaram muito a melhorar as quatro habilidades que são imprescindíveis quando se mora em um país de língua inglesa. Sempre recomendo o Ron porque ele é muito profissional.

Em 2020, procurei por um professor que me auxiliasse na preparação para o exame CELPIP, pois estava aplicando para o processo de Residência Permanente no Canadá. Não sabia que encontraria além de um professor, um amigo. O Ron me auxiliou bastante com vocabulário e, principalmente, com exemplos e ritmo exigidos na prova. Isso foi o diferencial para estar bem preparado e ter conseguido um bom resultado. Após o exame, continuamos com as aulas focando principalmente em conversação e vocabulário, tendo como grande vantagem o Ron ser uma pessoa interessada e disposta a conhecer a sua realidade, o que facilita bastante o fluxo da conversa.

Mesmo morando há três anos no Canadá, sentia a necessidade de melhorar minha comunicação em inglês. Comecei as minhas aulas com o Ron após encontrar uma indicação no Facebook feita por um aluno dele (que eu não conhecia). A metodologia super detalhista das aulas, as expressões idiomáticas, e vocabulário tornam as aulas interessantes, dinâmicas e completamente focadas na suas necessidades. Meu desempenho profissional cresceu muito e me sinto muito mais segura na comunicação com meus colegas de trabalho e amigos canadenses. Além de ser meu professor, o Ron se tornou um grande amigo. Desembarquei em Vancouver em Julho de 2019 com inglês nível intermediário e meu marido, com o básico do básico. Eu precisava melhorar vocabulário, aprimorar o ouvido e aprender o inglês do dia a dia. Precisava me comunicar! Meu marido, estudando no college, corria atrás de referências de um professor de inglês que pudesse ajudá-lo a se comunicar melhor. Foi quando uma amiga indicou o Ron. Sempre tive resistência de ter aula on-line, até perceber que o inglês e a confiança do meu marido melhoravam significativamente. Decidi então me inscrever nas aulas. Foi a melhor coisa que fiz na vida. As aulas eram personalizadas, repassávamos vocabulário, aprendi palavras que nunca pensei em usar. Do conhecimento veio a confiança e a vontade de se comunicar ainda mais. E assim, fomos desbloqueando algumas inseguranças, quebrando barreiras. Nos permitimos errar, mas nunca insistir no erro. Ainda estamos em evolução, com a diferença de que mais preparados e com o suporte de um teacher e amigo que levaremos para o resto de nossas vidas. Como ele diz, conhecimento é investimento. Invista em você!

Luciana, Human Resources Manager

Comecei a fazer aulas particulares com o Ron em março de 2022, e estou amando! Quando iniciei, estava procurando emprego no Canadá, e ter as aulas com ele me ajudou muito. Focamos na minha busca de emprego e o Ron trazia vocabulário relacionado à minha área. Dedicava tempo para aprimorar minha pronúncia e, com muito profissionalismo, empatia, e real interesse em me auxiliar nesse processo estressante, torcia por mim a se alegrava ao me ver alcançar meus objetivos. No final de maio, veio a grande notícia. Consegui um emprego! Sem sombra de dúvidas, recomendo o Ron que, além de excelente professor, é conhecedor das dificuldades de alunos brasileiros em termos de pronúncia e outros aspectos. Ele é um ser humano incrível que realmente se importa com quem está na sua frente, tem empatia e isso, como sabemos, faz toda a diferença!

Fernanda, Psychologist

Conheci o Ron quando estava me preparando para o IELTS. Meu nível de inglês era baixo e precisava de uma nota suficiente para o mestrado. Por questões de timidez, sempre tive dificuldade de me comunicar em inglês. Porém, o Ron deixava as aulas tão descontraídas que aos poucos fui ganhando confiança para me comunicar mais e mais e isso foi um completo divisor de águas na minha vida aqui no Canadá. Nossas aulas eram focadas em comunicação, mas tínhamos atividades focadas em entrevista de trabalho e vocabulário dedicado à minha área de estudo. Em todas as aulas Ron me recebia com um sorriso no rosto e com palavras de encorajamento para que eu pudesse seguir em frente na minha dura jornada como imigrante. Ron é um profissional excelente, sempre se mostrou muito humano, preocupado, empático e disponível para nos ajudar. Por isso, minha gratidão e meu carinho por ele são imensos.

As aulas com o Ron foram um “divisor de águas” no meu desenvolvimento na comunicação em inglês. Ele possui o que considero ser o requisito mais importante no processo de aprendizagem: a capacidade de manter o aluno motivado e em constante desenvolvimento. Ron torna as aulas extremamente interessantes e eu sempre termino com as sensação de ter valido a pena investir aquele tempo no estudo do inglês. Metodologia, carisma, customização e interesse genuíno nas necessidades de cada aluno fazem do Ron o melhor professor de inglês que já tive! E olha que, nos mais de 20 anos de estudo do idioma, já tive inúmeros professores de inglês. Indico sem nenhum medo de errar!

O que mais me cativa nas aulas são o formato das lições, a dinâmica, e a genuína atenção do Ron em focar nos pontos que eu comentei que gostaria de melhorar. Como por exemplo, a minha dificuldade na pronúncia de palavras no gerúndio por conta do meu idioma nativo. As aulas foram essenciais e de grande valor para meu desenvolvimento e aprimoramento na língua inglesa. Evoluí muito na conversação e comunicação com meus colegas de trabalho, e considero o método do Ron o melhor para quem busca aprimorar a pronúncia de uma forma objetiva e eficiente.

TESTIMONIALS

Marcio, An ofÏcer and a gentleman

O Ron é uma pessoa fora de série e um profissional de altíssimo gabarito. Ele não mede esforços para refinar minha pronúncia, vocabulário e gramática com precisão e sensibilidade. No entanto, o grande diferencial do Ron é o seu mindset estratégico: ele vai muito além do esperado para uma aula particular de inglês. Ele atua diretamente na nossa autoconfiança e no aculturamento para o mercado canadense, oferecendo também um suporte consultivo crítico na preparação para entrevistas de emprego. As sessões são dinâmicas, leves e personalizadas, focadas em alta performance. Exatamente o que eu procurava. Pela sua vasta experiência com profissionais brasileiros, ele já mapeou nossos erros comuns, especialmente em fonética, e atua de forma preventiva e eficaz. É um profissional genuinamente comprometido com o sucesso de seus mentorados. Sou extremamente grato por toda dedicação para melhorar minhas competências em inglês, por apontar as melhores estratégias para ter sucesso no Canadá, e por potencializar minhas virtudes, Brother Ron!

Além disso, sempre se colocou à disposição, me ajudou na busca por trabalho, me incentivou a todo momento e sempre envia materiais muito interessantes sobre o que falamos em aula. É um professor que realmente está dedicado a fazer o melhor para seu aluno. E detalhe: as aulas são maravilhosas, nem vejo a hora passar. Com certeza, eu recomendo."
